## REPORT OF THE REGENTS.

---

To his Excellency D. C. Heyward, Governor of South Carolina.

Sir: The Board of Regents of the State Hospital for the Insane respectfully submit their eighty-third Annual Report to your Excellency, together with the usual reports of the Superintendent and Treasurer, with statistical tables, records of vouchers, &c.

The continued growth in population of our State is reflected in the increase in population of the Hospital under our charge, the admissions for the past year—571—having exceeded those of any previous year. The total number under care and treatment was 1,849, the discharges 520, and the daily average 1,317.

The Hospital for the Insane, as expressed in previous reports, has become a "conglomerate institution, which serves as the receptacle for undesirable members of all communities of our State." This condition is not in accordance with the laws of South Carolina, and should not be allowed to exist. The Constitution provides that there shall be County Homes established in each County. If your honorable body would insist, by appropriate legislation, that the spirit of the Constitution should be carried out, at least one class of defectives known as *Poor House* Patients could be eliminated, and could be better cared for in their respective Counties, and also at less expense.

For a number of years we have recommended in our reports the policy of separating the several classes who are received into the Hospital by law and by custom. It would appear, in view of the facts before us, that the time has arrived when active steps should be taken looking towards the purchase and development of a colony or colonies for some of the classes of defectives now sent to our State Hospital.

At the last session of the General Assembly earnest efforts were made to purchase a valuable property in the northern part of the State for the uses of epileptics and inebriates. This measure failed on the third reading, much to the disappointment of its advocates.

Recently several tenders of land near Columbia have been made to our Board, which we have felt bound to take up and consider. It no longer seems to admit of question that the policy is forced upon us of maintaining within the city of Columbia a large central Hospital

for admitting all new or recent cases of insanity and the allied mental diseases.

The 360 acres of land now comprising the Hospital plant have been secured through strenuous effort during a period of 85 years.

Recognising, as we believe we do, the sacredness of our trust, we cannot for a moment entertain the idea of disposing of any portion of our present holdings, but looking to future needs, we believe that several groups of buildings for charitable purposes will be developed upon these premises. The plans for this development will be modified from time to time. To support the still larger colony of defectives that must be maintained here in the near future will necessitate the ownership of farming lands not too distant for the easy distribution of various products of the farm, vegetables, milk, &c. With this conception of our needs, we are prepared to advocate the purchase of such available tract or tracts as may be secured on reasonable terms. Several farms lying to the eastward of the city, adjoining the Camden and Garner's Ferry Roads, have been offered to our Board.

What seems to be the most available of these is the Industrial Home property, formerly called Albemarle plantation. This tract consists of 226 acres, more or less, and has been offered to us at the rate of \$100 per acre. We are unwilling at this time to ask the General Assembly to make a single appropriation sufficient to purchase this property. The method by which the Wallace property was purchased ten years ago permitted the immediate ownership of the property by paying a small proportion of the price and securing the balance by mortgage, at 6 per cent., with an agreement to pay \$4,000 per annum. This small sum affected little the rate of taxation of the State, and yet its advantages to the Hospital have been incalculable.

By a similar plan, with your approval, and that of the General Assembly, the State could secure this property in about five years, at an annual cost of \$4,000 and interest.

7 The Board has also an option, at \$1,500 per acre, on six and one-half acres of land adjoining the Bellevue Place, and lying west of the extension of Bull street. We ask permission to purchase this property from the pay patients' fund, as has been done in securing land lying east of the institution.

By way of calling your Excellency's attention to what other States are doing, in a financial way, for their insane, we beg to present this table, taken from a recent report of the U. S. Government. The figures apply to the year 1903:

States.	Number of Patients.	Appropri- ation.
Maryland .. . . . . .	2,505	\$237,706
Virginia.. . . . . .	3,137	353,814
North Carolina .. . . . .	1,883	262,551
South Carolina .. . . . .	1,156	121,136
Georgia .. . . . . .	2,839	350,746
Florida .. . . . . .	713	75,283
Kentucky .. . . . . .	3,058	459,419
Tennessee .. . . . . .	1,713	228,845
Alabama .. . . . . .	1,603	191,444
Mississippi .. . . . . .	1,493	175,921

A tabulation of the relative expenses in our Hospital over a series of years is both interesting and instructive:

Year	Total Patients.	Daily Number.	Total Expenses.	Per Capita.
1875.....	428	312	\$ 83,182 00	\$210 40
1880.....	541	397	84,000 00	214 04
1885.....	914	598	136,977 00	146 34
1890.....	1,014	754	100,744 00	131 05
1895.....	1,157	827	123,332 00	115 76
1900.....	1,461	1,043	127,181 00	102 71
1901.....	1,493	1,068	135,316 00	103 00
1902.....	1,611	1,134	157,870 00	101 32
1903.....	1,641	1,155	153,337 91	105 05
1904.....	1,736	1,210	162,643 36	102 39
1905.....	1,734	1,250	176,708 82	103 04
1906.....	1,849	1,317	164,701 14	106 89

Our per capita for the past year was \$106.89, as compared with \$103.04 for the year previous. This increase we consider a not unfavorable showing, in view, not only of the unusual demands made upon us, but also considering the high prices of all supplies. A not unfavorable comparison may also be made with the per capita of other States.

For the year we have to report a deficit amounting to \$2,373.94. While we regret this result, yet it was made clear in our last report that the estimates were made upon the narrowest margin possible.

Judging from recent experiences and results, we consider the appended estimates for the coming year to be as small as we can expect to make them:

For support .. . . . . .	\$160,000 00
For improvements and repairs.....	20,000 00
For land .. . . . . .	4,000 00
For Regents .. . . . . .	1,200 00
For insurance .. . . . . .	500 00
For deficit .. . . . . .	2,373 94

From our last report we beg to quote: "The employment of a dentist for the Hospital has been called to our attention. In the opinion of the Board there are other more pressing needs. But we refer the matter to the General Assembly as requested."

Expressing our gratitude to your Excellency for your uniform consideration of the interests of the great institution under our charge, and for your personal assistance in meeting some of the difficulties with which we have to contend, we have the honor of subscribing ourselves,

W. J. GOODING, President.

IREDELL JONES, Vice-President.

J. PERRY GLENN.

W. W. RAY, M. D.

J. H. TAYLOR, M. D.

## SUPERINTENDENT'S REPORT.

---

To the Board of Regents.

Gentlemen: I respectfully submit the eighty-third Annual Report of the State Hospital for the Insane for the year ending December 31, 1906.

The number of patients admitted during the year was 571, of whom 297 were males, and 247 females; the total number receiving treatment was 1,849, of whom 861 were men, and 988 were women. These figures show not only the highest number of admissions, but the largest number under treatment in the history of the institution.

Of the admissions, 289 were white, and 282 were colored. Of the grand total, 1,020 were white and 829 were colored. These figures indicate a continued increase of insanity among the colored race.

The daily average population was 1,317, as compared with 1,250 last year.

Two hundred and sixty-two patients were discharged, of whom 90 were recoveries.

The number of deaths was 258, of which 83 were white and 175 were colored. The mortality among the whites is not high, considering the classes of patients admitted. Among the negroes, as pointed out in former reports, it is high, not only on account of the prevalence of tuberculous among the people of that race, but also because of the over-crowding in unsanitary surroundings, to which they are exposed. We have no facilities for isolating tubercular cases that are out of bed, and with our present facilities, we are compelled to place tuberculous patients with other cases. In the negro wards we are not able properly to classify, either as to mental or physical diseases.

Not only over-crowded wards, but the use of cellars as dormitories are causative factors in the propagation of tuberculosis.

The out-door space for exercise and recreation especially for negroes is inadequate.

We have here accommodations for about 1,000 patients. During the year at one time the population rose to 1,364.

The following table gives a synopsis of the statistics since 1880 :

YEAR.	Admission.						Grand Total.	First Attacks.	Total Under Treatment.	Daily Average.
	White.			Colored.						
	M.	F.	Total.	M.	F.	Total.				
1881.....							210	140	643	
1882.....	86	93	149	49	67	116	265	143	755	
1883.....	54	61	125	63	54	115	210	135	789	564
1884.....	73	74	147	69	82	151	298	167	914	630
1885.....	60	68	128	44	44	88	216	110	879	593
1886.....	56	74	130	52	55	107	237	142	854	623
1887.....	65	48	113	51	64	115	228	154	894	653
1888.....	71	59	130	65	57	122	252	182	981	657
1889.....	90	50	140	86	76	162	302	217	1014	714
1890.....	72	85	157	85	80	165	325	229	1081	754
1891.....	94	61	155	80	76	156	311	212	1132	754
1892.....	91	76	167	88	63	151	318	219	1105	754
1893.....	83	77	160	85	70	155	315	210	1109	765
1894.....	92	68	160	80	69	149	309	198	1107	778
1895.....	81	89	170	99	75	174	344	199	1157	827
1896 (14 months).....	116	103	219	93	75	168	387	229	1247	853
1897.....	119	111	250	94	77	171	401	252	1257	875
1898.....	110	100	210	107	107	214	424	233	1383	976
1899.....	128	96	224	91	100	191	415	237	1399	996
1900.....	124	118	242	100	106	206	448	265	1461	1043
1901.....	142	114	356	87	116	203	459	237	1453	1068
1902.....	127	119	296	127	133	260	506	267	1611	1134
1903.....	149	128	277	104	109	213	490	244	1641	1155
1904.....	132	154	286	122	139	261	547	340	1736	1210
1905.....	143	118	261	141	119	260	521	261	1734	1250
1906.....	148	141	289	149	133	282	571	302	1849	1317

As shown in former reports, it appears that we now admit over a thousand new patients in two years, a number which it formerly required thirty years to bring to our doors.

The number of patients in the Asylum when I took charge of it August 13, 1891, was 761.

The demand for admission of new patients has never been so urgent as during the past year. From time to time plans have been suggested for relieving the institution from some of the many classes of defectives sent here. The last General Assembly had before it a plan for buying and developing a hospital for epileptics and inebriates in the upper part of the State. Most unfortunately, in my opinion, the Bill for carrying into effect this enlightened policy failed on the second reading in the House.

The South Carolina Medical Association, at its meeting last spring, passed resolutions directing the attention of the General Assembly to the need of better hospital provision for inebriates.

I have to report an unfortunate result from overcrowding and want of single rooms for violent patients. By reason of doubling up two patients in a single room, on the night of August 6th, James Barksdale, colored, killed Drayton Jones, who was in the room with him.

There had previously been no indication of homicidal tendency on the part of Barksdale. The matter was referred to the Coroner early on the morning of its occurrence.

As a result of this, your Board resolved that while you regretted the necessity of confining patients in the cellars, the demand and absolute necessity for more room is so urgent that there is nothing else which can be so promptly done to relieve the overcrowded and dangerous condition except to prepare the cellar rooms of the Parker Building for the violently insane colored men.

### GENERAL CONSIDERATION.

It seems advisable to reproduce here, with slight changes and additions, the conclusions reached by me from a study of the history of the Hospital several years ago:

*First.* That it has become part of the policy of the State to maintain in Columbia a large central colony for the insane people of both races.

*Second.* That "State Care" is a better system than was afforded by the old method of County support.

*Third.* That the separate or cottage plan of buildings or wards is better suited in our climate to the needs of the insane than are large, conglomerate buildings.

*Fourth.* That the separation from the insane people of such classes—inebriates, idiots, epileptics, etc.,—as are now associated with them, would prove advantageous to all.

*Fifth.* That the improvement of the County alms houses by having hospital wards, &c., would relieve this institution from receiving so many helpless dotards.

*Sixth.* The establishment of a farm colony for epileptics, a school for the feeble-minded and a hospital for inebriates, should form part of the future policy of the State.

*Seventh.* That the erection of separate wards for the violent insane is desirable.

*Eighth.* That the establishment of a farm colony for the chronic insane is an important problem for future consideration.

*Ninth.* The means for separating the tuberculous from non-tuberculous is at the present time a question of vital importance.

Several of these conclusions need, at the present moment, to be emphasized and amplified.

*First.* The central colony in Columbia. In the 50's, when the Asylum consisted of one building and a few acres of land, the ques-

tion of moving the institution into the country was thoroughly discussed. After what amounted to a controversy on the subject, lasting for several years, the decision was finally reached to erect new buildings adjoining the original structure. Again in the 80's, the question of separating the whites from the negroes was referred to a Committee, which decided that it was best to keep both races in Columbia. This report was referred to the General Assembly and approved. Following these conclusions large and expensive structures have been erected here and adjoining property has been secured as it came on the market till now 360 acres of land are held by your Board as one tract within and adjoining the corporate limits of Columbia. The total plant, including lands, buildings, furnishings, &c., have now an estimated value of one million dollars. Upon these holdings you and your successors will probably go on constructing buildings for receiving the various classes of mental nervous diseases from the State. It is my opinion that none of your present holdings should be sold for a half century at least. During that time a State Hospital for the Insane can be most advantageously administered in its present situation. No doubt the time will finally come when Columbia will be a too populous and thriving city for an insane asylum within her midst. Such has been the experience elsewhere, and history will only repeat itself here. But I do not think the time has yet arrived when it would be a wise policy for the State to sell any of the asylum property now held in Columbia. The State Hospital in its present location is worth too much to the State at large because of its ready accessibility and convenience of administration for a removal from Columbia to be favorably considered.

*Second.* The proposition of the separate or cottage plan of buildings has been followed in the erection of the Taylor and Talley Buildings for violent white patients, and the results are proving most satisfactory in all respects.

*Third.* It not only remains for us to continue to develop here pavilion wards to meet present and future needs, but to acquire nearby farming lands for a hospital for inebriates and epileptics, and for colonies for the chronic insane and tubercular cases as well as for farming and dairy purposes. I believe such lands have recently been tendered to your Board, and for the future interests of the insane of this State, I trust that you may induce the Governor to recommend the purchase of the most available tract, and the members of the General Assembly to devise means for securing this property before the prices advance too high.

*Fourth.* Plans for the future growth of the Hospital upon its present holdings reduce themselves within certain definite limits:

(a) One story brick or cement structures should be erected on the present sites of the wooden pavilions now occupied by negro women.

(b) The Taylor Buildings for white men of the excited class should be completed in the not distant future, although this is not so urgently needed as some others.

(c) A brick building, similar to the Talley Building, should be erected for violent colored men along the line of Barnwell street, north of Lumber street. This land has been enclosed within the Hospital lines since the purchase of the Jones and Weir properties.

(d) For white women another building like the Talley Building should be erected north and west of that structure. When this is done we could remove the remaining ward of forty white women now confined in the old Asylum Building otherwise occupied by negro women and remove a stigma long resting upon us.

(e) When these or similar plans have been carried out, the time will have arrived to erect an up-to-date pavilion hospital upon the fine plateau of the Wallace purchase, called the Bellevue Place.

In concluding this subject, I trust I may express my own opinion, that it would be economy to develop the first four suggestions or plans first. The fifth suggestion of a modern pavilion hospital is the most important, and when that step is finally taken, it will probably mean that the State has adopted the policy of maintaining in Greater Columbia a hospital for the insane for another hundred years at least. The removal and development of the several mechanical departments—laundry, carpenter shops, blacksmith shop, &c.—to the valley lying below and easterly from the line of Barnwell street, will take place in the future of the Hospital.

### “SETTLEMENT.”

For a number of years I have called the attention of your Board to the growing importance of what is termed “settlement.” This is a question apart from mere citizenship. Four years ago a law was passed, based upon the laws of adjoining States, forbidding the admission to this Hospital of persons who have not been residents of this State for the two years previous to the application for admission. This is a good law, so far as it applies to aliens or persons born in other States. It practically includes the principle recognized by the United States Government as applied to newly arrived immigrants. But, in my opinion, this law goes too far, in that it

excludes also persons born in this State and residents here for many years, but who after residing in other States return here with the idea of again becoming citizens of our State. These persons are upon a different footing from aliens or recent arrivals in South Carolina. My view of a settlement is that it is the right of support by tax-payers when a person becomes insane or pauperized. It may be acquired by birth or residence. When acquired by birth, it can never be lost, and should never be denied. Some day, it is to be hoped, that representatives of our Southern States may get together and frame a law for the management of these cases. Meanwhile, I do not think an individual or individuals should be permitted to suffer because the authorities of adjoining States choose to differ on an abstract principle of charity administration.

### CRIMINALS.

The number of men accused of crime and committed to this Hospital as insane is distinctly on the increase. Twelve such were sent here last year. As this report goes to press, application is made for the admission of a life convict from the State Penitentiary.

While every effort is made to make the buildings here secure against escape, yet it is impossible and unwise to make it a prison. We have not the means of holding this class of people, nor do I think it comes within the province of a State Hospital to receive and keep them. I have no power to refuse admission to these cases when two physicians and a Judge of Probate choose to commit them, but my opinion is that it is an abuse of the purposes of the institution, and ought to be regulated. It should be noted, however, that in February last, your Board refused to admit Elliott Samuel, a murderer, from Hampton County.

### IMPROVEMENTS.

Early in the year your Board decided upon the policy of no new buildings, in order that many improvements and repairs should be carried out. Along the line of improvements may be noted the completion and occupancy of the Talley Building, on April 2, which has proved already a great addition to our resources for handling a difficult class of patients. The repainting of the third, fourth and seventh wards for white women has shown the advantage of frequent renovation of wards occupied by insane patients. The enlargement of the second ward dining room for white women was a necessary change. The six dining-rooms at the old building have been en-

larged by removing the partitions separating the pantries. The addition of a larger mangle to the laundry outfit and a cement floor to the store-room have supplied needs of long-standing. The experiment of employing wire-fences about the grounds of the Talley Building has, upon the whole, proved an advantage in promoting a better circulation of air, and is deserving a more extended trial.

The reshingling of the wooden pavilions at the old building and general repairing and reshingling of several houses occupied by employees have been done. The boiler room has been greatly enlarged, and a large second-hand boiler added to the equipment.

Besides these larger improvements, the many minor repairs have been kept up and much repainting done.

The vote of your Board in December to allow the Electric Street Railway, under certain limitations and conditions, to pass over a portion of your grounds, will prove an advantage to all interests connected with the Hospital.

### NEEDS.

Three years ago your Board purchased the Seegers' land abutting on the Southern Railway. Since then we have made every effort to have the Southern Railway erect an iron bridge under its tracks at the junction of Lumber and Laurens streets. We have, through the work of colored male patients, opened Lumber street easterly to Harden street. As one of the objects of the purchase of the Seegers' land was to protect the Hospital property by closing certain streets, and we cannot now close those streets till the railway completes the bridge as required by the General Assembly. I beg you to direct the attention of the next General Assembly to the urgent need of the completion of the bridge.

The urgent need of several new buildings to accommodate our ever increasing population, has already been sufficiently emphasized.

### FINANCIAL.

In my last report the effort was made to call briefly to mind the financial showing of this Hospital for a generation in these words:

"In considering the finances of the Hospital it is well to keep in view that during the last 30 years while the population, both daily average and total, has increased four-fold, the appropriation has only doubled and the per capital has diminished one-half. Meanwhile, the price of food stuffs and supplies has increased on an average 25 per cent. For several years it has been duly set forth in these re-

ports that our appropriations have not kept pace with the growth and needs of the Hospital."

I took upon myself to say in that report, your estimate for maintenance was too small. The result has been that with a smaller appropriation than we should have had the Treasurer and I have been handicapped in trying to furnish necessary supplies to the largest population we have ever had. It is true we have been able to allow the amount expended for support to exceed the appropriation by only \$776.86, but this has been by an economy which has excluded all but actual necessities.

In order to secure and keep the class of help it has been necessary largely to increase the pay roll.

In spite of all these difficulties, in the way of increased expenses, I am glad to report that the deficit is only \$2,373.94.

The total amount actually expended for support proper was \$140,776.86. This amount, divided by the daily average number of patients, 1,317, gives the cost per capita for the year of \$106.89. This exceeds the per capita of last year by \$3.85.

With an ever increasing population, and the price of labor and supplies advancing, I think you will find it difficult to keep the per capita to the low amount it has been for several years.

Considering all the problems you will have to meet next year, your Board has decided to place as your estimates for the coming year these amounts:

For support .....	\$160,000 00
For improvements and repairs .....	20,000 00
For land .....	4,000 00
For deficit .....	2,373 94
For Regents .....	1,200 00
For insurance .....	500 00
<hr/>	
Total . . . . .	\$188,073 94

A larger amount for building purposes would, in my opinion, greatly facilitate the operations and usefulness of the institution.

Thanking your Board and the resident officers for the aid you have given during another year in administering the affairs of the Hospital, I remain,

Very respectfully,

J. W. BABCOCK,  
Physician and Superintendent.

## GENERAL STATEMENT.

### DISBURSEMENTS.

Paid Premiums on Insurance.....	\$216 00	
Paid Interest on Money Borrowed at Banks.....	282 49	
Paid Personal Accounts and Rebates Pay Patients.....	131 27	
Paid Regents .....	1,166 50	
Paid Toward Debts on Lands.....	1,830 00	
Paid Water Supply for Fire Protection.....	1,500 00	
Paid Refrigeration .....	1,500 00	
Paid Labor, Mechanical Pay Roll.....	3,113 97	
Paid Labor and Material in Building and Repairs.....	14,184 05	
Paid Maintenance .....	140,776 86	\$164,701 14

### RECEIPTS.

Total Appropriation for Support .....	\$140,000 00	
Total Appropriation for Building, etc.....	10,000 00	
Total Appropriation Water Supply.....	1,500 00	
Total Appropriation Refrigeration .....	1,500 00	
Total Appropriation Regents .....	1,166 50	
Total Collected for Pay Patients.....	5,225 43	
Total Collected, Hides and Tallow.....	1,233 08	
Total Other Sources .....	1,702 19	
Total Received .....	\$162,327 20	
Deficit ..	2,373 94	\$164,701 14

### FARM DEPARTMENT.

Paid for Supplies on hand January 1st.....	\$12,275 00	
Paid for Labor during the Year.....	8,344 26	
Paid for Commercial Fertilizers.....	674 77	
Paid for Lot Manures, Screenings, etc.....	258 00	
Paid for Beef Cattle .....	5,159 39
